Real Time Clock

Brightwell Dispensers' BrightLogic laundry dosing systems have been created for commercial laundry environments. These reliable, easy-to-use and resilient systems come with a Real Time Clock (RTC) feature, enabling users to use date and time stamp functionality.

[Download the Real Time Clock flyer](#)

Features

- Date stamping of chemical usage reports
- Data storing capacity
- Auto-date stamping of pump calibration
- Computer software
- Manual or automatic date synchronisation
